REFERENCES:

- (1) Memorandum to the Director of Personnel from the DD/S, dated 30 June 1956, subject: Procedure for Processing Regulation Material;

1. The subject notices, redrafted pursuant to referenced memorandum number (2), are submitted for your approval and transmittal to RCS for coordination for publication. It is requested that RCS indicate the expiration date thereon to be six months from date of publication. These redrafted notices have been approved by the Medical Staff and the Offices of the Comptroller and General Counsel.

2. As you know, standards under our new program for dependents have not yet been delineated or the extent of coverage thereunder determined. For these reasons we believe it desirable that individuals do not prematurely drop medical insurance and hospitalization policies and paragraph 3 of the subject notices is designed to prevent such action on their part. We have not, therefore, redrafted said paragraph 3.
